1.3. Orders in CFDs are executed according to the “Summary of Best Interest and Order Execution Policy” available on the Website.

2. Types of CFD Orders

2.1. The following CFD Orders may be placed with the Company, depending on the types of Client Account the Client has:

- (a) Previously Quoted. The Client sends new Orders with a reference to a previously received executable price.
- (b) Limit. Orders executed according to Client specifications at the limit price or better until they are filled, cancelled, or expired.

- (e) Stop. Orders are active but do not execute until the market price reaches the Order’s trigger price. Orders are then executed as market or market range orders depending on whether or not the related field is specified.
- (f) Stop Limit. Orders are active but do not execute until the market price reaches the Order’s trigger price. Orders are then executed as limit orders at the order limit price or better.
- (g) One Cancels the Other (OCO). OCO orders consist of two orders submitted separately and tied by their order IDs (add here what the letters IDs stand for).

3. Placing, Cancelling or Removing Orders and Execution of Client Orders

3.1. Orders can be placed, executed and (if allowed) changed or removed within the Trading Hours for each type of CFD appearing on the Company’s Website and/or the Platform, as amended from the Company from time to time.

3.2. Pending Orders, not executed, shall remain effective through the next trading session (as applicable).

3.3. Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.

3.4. All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.

3.3. Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all pending orders at Stop Out level as defined in paragraph 7.4 below of this Appendix.

3.4. Orders cannot be changed or removed after having been placed in the market. Stop Loss and Take Profit Orders may be changed even if the trade was placed in the market as long as they are higher in distance than a specific level (depending on the trading symbol).

3.5. The Client may change the expiry date of Pending Orders or delete or modify a Pending Order before it is executed, if it is not Good till Cancelled (GTC).

3.6. The Company shall arrange for execution with the Execution Venue of all Orders given by the Client strictly in accordance with their terms. The Company will have no responsibility for checking the accuracy of any Order.

3.7. CFD Orders are executed as:

(a) CFD on currency pairs:

- Take Profit (T/P) orders are executed at stated prices;
- Stop Loss (S/L) orders set for lock positions are executed at first market prices;
- Limit orders are executed at stated prices;

- Limit orders are executed at stated prices;
- Stop Loss (S/L) orders are executed at first market prices;
- Buy Stop and Sell Stop orders for the opening position are executed at first market prices.

3.8. During the course of this Agreement in relation to all individual CFD trading by the Client, the Company shall arrange for the execution of Client Orders with another entity (the Execution Venue) and shall not act as principal but as an agent in relation to the Client. A list of these institutions appear on our Website and/or our "Summary of Best Interest and Order Execution Policy".

3.9. The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue.

3.10. It is the Client's responsibility to be aware of his positions at all times.

3.11. The Quotes appearing on the Client's terminal are based on the quotes from the Execution Venue and are indicative quotes and hence the actual execution price may vary depending on the market conditions. For example, if there is high volatility in the Underlying Market the execution of the Order may change due to execution time and also the Client may ask for price but he will get the first price that will be in the market and this may result in positive or negative Slippage for the Client.

4. Prices, Commissions, Financing Charges, Swaps

4.1. The manner of calculation of the Company's BID and ASK prices appearing on the Platform for a given CFD are calculated by reference to the price of the relevant Underlying Asset, which the Company obtains from third party external reference sources (i.e. from its Liquidity Providers / Execution Venues). To explain, the Execution Venues obtain their own prices (BID and ASK prices) of the Underlying Asset for a given CFD from third party reputable external reference sources (i.e. price feeders). The Execution Venues then use these prices to calculate their own tradable prices for a given CFD and provide them to the Company. The Company shall in turn provide the Clients on its Platform with its own prices. It is noted that in most types of CFDs the Company increases may choose to increase the Spread The difference between the BID and ASK prices quoted of a given CFD is the Spread. Between the BID and ASK the prices it quotes to Clients compared to the prices it obtains from third party external reference sources, the Execution Venue (adds mark-up to the Spread). In other types of CFDs, the Company does not increase the prices it offers to Clients but instead charges a separate Commission. The Company's Commissions appear on the Website at www.forex24.com.

4.2. For opening a position in some types of CFDs the Client may be required to pay financing fees, the amount of which shall be disclosed on the Company's Website. In the case of financing fees, the value of Opened Positions in some types of CFDs is increased or reduced by a daily financing fee "swap rate" throughout the life of the contract.

4.3. Swaps are calculated when the position is kept open overnight at midnight (00:00 CET). Swaps for Wednesday, Friday and Saturday are calculated on Wednesday.

5. Lots

5.1. The 1 (one) standard lot size is the measurement unit specified for each CFD. The Company may offer standard lots, micro-lots and mini-lots, in its discretion, as defined from time to time in the Contract Specifications or the Company's Website.

6. Trailing Stop, Expert Advisor and Stop Loss Orders

6.1. The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever.

6.2. The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

7. Margin Requirements

7.1. The Client shall provide and maintain the Initial Margin and/or Hedged Margin in such limits as the Company, at its sole discretion, may determine at any time under the Contract Specifications for each type of CFD.

7.2. Unless a Force Majeure Event has occurred, the Company has the right to change the Margin requirements, by providing a post in the Website and/or Platform) and the Company has the right to apply new Margin requirements to the new positions.

7.3. The Company has the right to change Margin requirements without prior notice to the Client in the case of Force Majeure Event and especially when there are abnormal market conditions. In this situation the Company has the right to apply new Margin requirements to the new positions and to the positions which are already open.

7.4. Without prejudice to paragraph 13.1. of the Client Agreement, the Company has the right to close at market prices and or limit the size of Client Open Positions and to refuse new Client Orders in any of the following cases:

- (a) The Company considers that there are Abnormal Trading conditions.
- (b) The value of Client collateral falls below the minimum margin requirement.
- (c) At any time, Equity (current balance including open positions) is equal to or less than a specified percentage of the margin (collateral) needed to keep the open position.
- (d) The Company makes a Margin Call (including the situation where the Platform automatically notifies the Client) and the Client fails to meet it.
- (e) The Execution Venue cannot execute the Order; for example, because it is unable to determine the market price of the Underlying Asset.
- (f) The system of the Company rejects the Order due to trading limits imposed on the Client Account.
- (g) When the Margin Level reaches 50% (ratio of equity to Margin in the Client Account), the Client positions will start closing automatically at market prices (Stop Out level of 50%) and the Company has the right to refuse a new Order.

7.5. The Company does not have an obligation to make Margin Calls to the Client (indulging the situation when the Platform automatically warns the Client that it reached a specific percentage of the Margin, set at 75%, in the Client Account). However, if the Company does make a Margin Call then the Client should take any or all of the three options to deal with the situation:

- (a) Limit his exposure (close trades); or
- (b) Hedge his positions (open counter positions to the ones he has right now) while re-evaluating the situation; or
- (c) Deposit more money in his Client Account.

7.6. Margin must be paid in monetary funds in the Currency of the Client Account.

7.7. The Client undertakes neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the Margin transferred to the Company.

7.8. It is understood that once an Order is placed, until such Order is executed, and the Transaction is closed, the Maintenance Margin shall distinctly appear in the Balance, but because it is used as collateral for keeping the position open it shall be unavailable for withdrawal.

7.9. The Company ensures that losses will not exceed the total available funds per Clients' Forex24 trading account(s) (negative balance protection). In the event that a negative balance occurs in the Client's Trading Account due to Stop Out, the Company will make a relevant adjustment to the full negative amount, so the Client does not suffer the loss.

8. Settlement of Transactions

8.1. Upon completing a Transaction one of the following shall apply:

(a) The Client shall be liable for the Difference if the Transaction is:

(i) a Sell, and the closing price of the Transaction is higher than the opening price of the Transaction; or

(ii) a Buy, and the closing price of the Transaction is lower than the opening price of the Transaction.

(b) The Client shall receive the Difference if the Transaction is:

(i) a Sell, and the closing price of the Transaction is lower than the opening price of the Transaction; or

(ii) a Buy, and the closing price of the Transaction is higher than the opening price of the Transaction.

8.2. Unless the Parties agrees otherwise, all sums for which either Party is liable under paragraph 8.1 of this Appendix are immediacy payable upon closing or expiration of the Transaction. The Client hereby authorises the Company to debit or credit the relevant Client Account with the relevant sums at the closing of each Transaction.

9. Inducements

9.1. It is understood that the Company arranges for the execution of Client Orders with another entity (the Execution Venue) and does not execute them itself as a principal to principal against the Client. The Client is hereby informed that for certain types CFDs, only where the Company charges the Client separate Commissions (as explained under paragraph 4.1 of this Appendix), the Company also pays monthly commissions to the Execution Venue. These are calculated as a percentage of the total Commissions charged by the Company for the particular type of CFD. For more details on these commissions paid to the Execution Venue, you may contact the Company and the Company hereby undertakes to provide the relevant clarifications.
